## Regular Normal Course

—•—

To enter the first year of the course, students must have a fair knowledge of arithmetic, physiology, civil government, reading, spelling, writing, United States history, geography, grammar, and the elements of algebra to quadratics. Test by faculty.

*First Year*—Algebra, school management and school law, spelling, reading, ancient and mediæval history, physical geography, arithmetic, English grammar, public school music, physical training, manual training, or domestic science and any one of Latin, Cæsar, French, Spanish or German.

*Second Year*—Plane geometry, rhetoric, composition and English classics, botany, civil government, zoölogy, modern and English history, methods of teaching, drawing, physical training and any one of Cæsar (four books), French, Spanish or German.

*Third Year*—Psychology, English and American literature, United States history, geography, physiology and school sanitation, methods in history and geography, chemistry, physical training, and any one of Cicero (six orations), solid geometry and plane trigonometry, French, German, Spanish, Astronomy and Geology, Economics, or any two of Rural School Management, Methods of Teaching, Special School Subjects, or Handwork and Basketry.

*Fourth Year*—Practice teaching, history of education, agriculture and nature study, arithmetic and methods of arithmetic, grammar, methods in English, public speaking, physics, drawing, manual training or domestic science, physical training, and any one of Virgil (six books), French, Spanish, German, or any three of ethics, philosophy of education, sociology, rural school problems, and surveying.

## CONDITIONS OF ADMISSION, GRADUATION, ETC.

1. Properly certified graduates of approved Pennsylvania high schools of the first grade and of city high schools, as listed by the Department of Public Instruction, may be admitted to the third year of the Four Years' Course of the State Normal Schools without examination, conditioned in the branches that have not been satisfactorily completed in their high schools.

2. Properly certified graduates of approved Pennsylvania high schools of the second grade may be admitted to the second year of the Four Years' Course of the State Normal Schools without examination, conditioned in the branches that have not been satisfactorily completed in their high schools.

3. Properly certified graduates of approved Pennsylvania high schools of the third grade may be admitted to the first year of the Four Years Course of the State Normal Schools without examination, conditioned in the branches that have not been satisfactorily completed in their high schools.

4. The Faculty of any State Normal School may excuse graduates of approved high schools from taking or passing examinations in, any academic work satisfactorily done in their high schools, except in the review subjects of the third and fourth years.

5. A person who desires to be admitted to the second or third year without having previously attended an accredited high school, must have a certificate of a commissioned Superintendant of Schools, showing that he has pursued the branches of the first year or the first and second years, with his standing in those branches, or must pass a satisfactory examination by the Faculty in said branches, or be conditioned in them. But the studies in which any one is conditioned under this rule or any one of the rules above shall not foot up more than 320 weeks.

6. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board of Examiners, he shall not be admitted to the same examinations at any other State Normal School during the same school year.

7. If a person who has completed the examinations required for admission to the classes of any year at any State Normal School desires to enter another Normal School, the Principal at the school at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of any studies at a State Normal School shall be issued.

8. At the end of the third, and of the fourth, year of the course, students must pass examinations in them by the State Board of Examiners,\* as well as by the faculty of the Normal School. There are no State examinations in the work of the first and second years, their work being finally passed in the faculty examinations or before entering the school as herein provided.

\*The State Examinations are held early in June, the dates being fixed by the Superintendent of Public Instruction.

The Faculty of the Normal School gives (without cost) examinations in, or preliminary to, the course of study several times during the school year. Write for dates.

9. Candidates for graduation shall have the opportunity of being examined in any higher branches, and all studies completed by them shall be named in their certificate. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas as to the passing of the branches completed at said examination. No certificate or diploma valid for teaching except the one regularly issued by the State Board of Examiners to regular graduates shall be issued by any State Normal School or any person connected with any such school.

10. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the faculty and presented to the Board. Studies that have been completed at a high school shall be distinguished by the words "high school" or the initials "H. S." A separate list of each class shall be prepared for the use of each examiner together with a separate list of students conditioned in any branch, with the branches in which they are conditioned and the grades shall be indicated in every list where substitution is made or extra branches are taken. These lists shall be ready for the State Board before the examination begins.

11. No State examination shall be given to any student on part of a year's work unless the study is completed, but (except in the last year's examination) a student may be conditioned by the State Board of Examiners in not more than two subjects, covering not more than one period of work for a year. Accurate records of these conditions shall be promptly sent to the Superintendent of Public Instruction and the fact that the students thus conditioned have taken up such subjects and passed them by the faculty shall be certified to in writing to the State Board of Examiners before such students are admitted to another State examination.

12. Within fifteen days after the examination by the State Board of Examiners at any Normal School, the Principal of the school shall send to the Department of Public Instruction a complete list of all who have taken advanced branches, together with a list of these branches, also a list of those to whom diplomas and certificates were granted, and a list of those who passed the State Examination in any year, naming the year.

13. Attendance for the last two years shall be required of all students, except in the case of graduates of Four Years' Courses in colleges approved by the College and University Council, who may be graduated after one year's residence; but,

14. Persons who have completed, without conditions, not less than one year's work in a college approved by the College and University Council of Pennsylvania, or by the Superintendent of Public Instruction under its authority, may, with the consent of the Superintendent of Public Instruction, be admitted to the senior class of a State Normal School, conditioned in any subjects in which they are not satisfactorily certificated by their college or high schools.

15. When the school department of any state has graded its high schools, the Superintendent of Public Instruction of Pennsylvania may permit the State Normal Schools to admit the graduates of the high schools of such states upon the same conditions as the graduates of the Pennsylvania high schools are admitted thereto, provided, that the high

schools from which they graduated have courses no shorter than those of the Pennsylvania high schools entitled to certificate graduates to the same standing.

16. Secondary schools other than public high schools, which have been rated by the high school inspectors or by the Examiners of the Bureau of Professional Education, may, so far as the admission of their graduates to the State Normal Schools is concerned, be put on the same footing as high schools of the first, second or third grade, by the Superintendent of Public Instruction.

17. The Principal of any Pennsylvania State Normal School, with the consent of the Superintendent of Public Instruction, may admit a person from a State Normal School of another state to corresponding standing in a Pennsylvania State Normal School, up to the beginning of the fourth year, subject to conditions in any subject in which he is not satisfactorily certificated by his Normal or high school.

### CERTIFICATES AND DIPLOMAS

A graduate receives a certificate in which are named the branches he has studied, which entitles him to teach in the public schools of Pennsylvania for any two subsequent years without further examination.

Graduates who have taught for *two annual terms*, in the Public Schools of the State, and who have presented to the Faculty and Board of Examiners certificates of good moral character and skill in the art of Teaching from the Board or Boards of Directors in whose employ they have taught, countersigned by the proper Superintendents, may receive diplomas, which are permanent certificates of the highest grade. *They confer upon their holders the right to teach the branches named therein in the public schools of Pennsylvania without further examinations.*

### COLLEGE WORK AT THE NORMAL SCHOOL

Professors of the *University of Pennsylvania* will come to the *West Chester State Normal School* each week and give regular college courses from the University's course of study. Students deemed by the faculty to be qualified, and to have time for them, may take such courses, and if they pass the examinations in them, will receive the same credit at the University towards the completion of the college course as if they had taken them at the University itself. Some of these college courses will be in addition to the Normal School course, others may be substituted for the same subjects at the Normal School. The University will charge a fee of \$12.50 per year for each course which leads to one credit of a college course.

This arrangement makes it possible for many students of the West Chester State Normal School to complete a part of a college course at the University of Pennsylvania, without lengthening their Normal School course. It is believed that this is the only Normal School offering such an opportunity.

### EXTENSION COURSES

In neighborhoods where there is sufficient demand for it, members of the Normal School Faculty carry on Extension courses in Pedagogy, and the Faculty of the University of Pennsylvania has agreed to give college credit for such of this work as has been satisfactorily done. Information about this will be given on request.

## DEPARTMENTS OF STUDY

### Professional Training

---

The aim of the Professional work is to prepare practical and efficient teachers by giving the students such special instruction and training as fits them to organize, to govern, and to teach a school both intelligently and sympathetically. Thorough scholarship in academic subjects is the first essential, but to-day professional training is believed by all competent judges of sound education to be just as necessary. The work of all the years is carefully unified in the class room, all the courses are kept in close touch with each other, and the methods are continually compared with the practices of the best schools.

*First Year:* School Law, School Management.

The Code of 1911 is carefully taught in all the particulars that affect the child, the school, or the teacher. In School Management the presentation emphasizes organization, discipline, moral training, habit formation. Knowing of the experience of successful teachers is the beginner's best preparation for profitable experience of his own.

*Second Year:* Methods of Teaching.

In this course the aims, purposes, processes of the recitation, and ways of teaching special branches or special topics, are thoroughly taught. The preparation of Lesson Plans is emphasized.

*Third Year:* Psychology, and Special Methods in History and Geography.

This course consists of an introspective and simple experimental study of sensation, perception, conception, imagination, memory, association, attention, judgment, and reasoning, with especial application to school activities when practicable. The genetic point of view is especially emphasized in the study of the mental processes to the end that students may understand the developing mind of the child and thus come to know the significance of the laws governing the training of such a mind.

Special methods in History and Geography give the students a clear, definite and lively conception of the purpose of each of these studies, and familiarity with the best way to achieve these purposes with the children in school.

*Fourth Year:* History of Education, Special Methods, Practice Teaching, Electives.

(1) The course in History of Education emphasizes primarily the evolution of the modern elementary school. It aims to give the historical development of the principles which now obtain in the organization, management, and methods of representative elementary school systems.

(2) Special courses in the teaching of Arithmetic and Grammar are given in the senior year.

(3) Practice teaching is one of the distinctive features of the work of the senior year. The West Chester State Normal School is remarkably well equipped to offer the best facilities for observation and practice teaching. The model graded school is housed in a new school building, 114 by 62 feet, recently erected at a cost of \$42,000. This building is located on the campus of the Normal School, and is a most complete and suitable building for the purpose. It is used by the public schools of West Chester, and the Superintendent of the West Chester public school system is Principal of this graded model school. The members of the senior class observe and teach in the different grades of this school. They meet the principal collectively once each week for general instruction in methods and school management, and individually meet him daily for special instruction adapted to their individual needs while teaching. This experience in public schools of high reputation and efficiency is an excellent preparation for the practical side of teaching, and gives the graduates of this school an unusual advantage. A number of the Seniors are detailed as assistants in other schools in West Chester.

Arrangements have been recently completed whereby several model one-room rural schools within easy reach of West Chester are available for observation and practice teaching. These are all in charge of well trained experienced teachers. Hereafter all who definitely plan to teach in rural schools will be given extra opportunity for observation and practice in all three of these model rural schools.

(4) The elective professional subjects of the senior year are Philosophy of Education, Sociology, Ethics and Rural School Problems. These subjects may be substituted for Latin, French, or German.

The course in Rural School Problems aims to emphasize: the recent changes in rural life conditions, and the changing functions of rural social institutions, especially the rural school; rural life needs and the rural school's readjustment of plant, equipment, and curriculum to meet these needs; the new types of supervision, organization and management; the sources of periodical and bulletin literature on general and specific phases of the movement for rural school betterment.

The course in Sociology is given with the view of enlarging the student's social outlook and social interests, and of acquainting him with the fundamental principles that underlie social activities so that those who take up problems of education may intelligently participate in those interests which inhere in the life of the community.

The course in Ethics is primarily adapted to the teaching of morals through the medium of the public schools. Little time is devoted to abstract ethical principles, but concrete problems associated in the minds of teachers with moral instruction are discussed and a course of study and methods of procedure are outlined for practical use in the elementary schools.

## Language

*English Grammar:*—Our teachers aim to make the work in grammar distinctly practical. While they present the technical side of the subject and emphasize the importance of a thorough understanding of the inflections and relations of the various parts of speech, their main purpose is to train the student in the use of his mother tongue by having him

use it. Carefully criticised oral and written work is conducted and personal interviews with the students are held in order to point out their mistakes and lead to a remedy. The new course continues the study of grammar in the Senior year where, aside from a general review there taken, an opportunity is given for the presentation of pedagogical suggestions to the person about to teach. To our students grammar is made not merely a science—knowledge systematized—but an *art*—knowledge applied.

*Rhetoric*:—The work in rhetoric embraces a careful study of style in its various phases and a continuation of the written exercises carried on in grammar. Effectiveness of speech is thus made to supplement fluency and accuracy. The preparation of more comprehensive theses is added to the writing of one-page themes, and more formal and extended orations take the place of brief speeches.

*Literature*:—The study of literature includes a general survey of English and American literature, a thorough discussion of plans for the consideration of an author's life and writings, and a careful, critical examination and appreciation of certain great classics. The aim is not merely to familiarize the student with dates and facts, figures and philology, but to guide him to the real essence of literature and lead him to get at the heart of the thought of the author and get that thought into his heart.

The requirements in English for admission to American colleges receive special attention.

*Latin*:—In the Junior year the aim is to master the declensions of nouns, pronouns and adjectives, the comparison of adjectives, the formation and comparison of adverbs, and the conjugation of regular and irregular verbs. Daily exercises in the translation from Latin into English and from English into Latin are required in such a way as to give the student an ordinary working vocabulary and understanding of the common rules of syntax. Four books of Cæsar's Commentaries are read. A critical study is made in view of thoroughly grounding the rules of syntax, special attention being given to subjunctives. Translation into the best English idiom is rigidly required. Translations at sight and hearing are practiced. A knowledge of the subject matter, such as the tracing of Cæsar's marches, the geography of Gaul, the Roman art of war, and the life of Cæsar are topics for supplementary reading. In the third year six of Cicero's orations are read, including the four against Cataline, the one on Archias, and the one on the Manilian Law. Attention is given to the logical outlines, to the style of Roman oratory and to Cicero's life and the times in which he lived. The first six books of Virgil's Æneid are also read. Attention is given to the general style, Epic poetry, poetic constructions, figures of speech, prosody, peculiarities in the forms, mythological references, and to Virgil's life and times.

*French and Spanish*:—The instructors in this department have been educated abroad and have a careful and accurate knowledge of French and Spanish. They have had large experience in teaching these languages. The students, during the first year, are carefully drilled in correct pronunciation and made familiar with the elements of the Grammar. Idiomatic expressions, proverbs, short poems and prose selections are memorized and frequently repeated, and a considerable amount of French and Spanish is read. Conversation and free reproduction based on selections read are found to be useful in fixing the principles of the language, and the sight reading and dictation exercises are valuable aids in the same direction. French and Spanish are freely used in the class room to enable pupils to acquire as much as possible during the year. This is

followed by a more exhaustive study of the grammar, by much reading of standard literature and further practice in conversation, composition and drill in letter-writing. Sight reading and dictation exercises are continued throughout the course.

*Reading and Public Speaking:*—The Reading work in the first year aims to cultivate the power of thought and imagination as a basis for expression. Effort is made to train voice and body and to promote correct speech, that the pupil may be enabled to read intelligently. A certain amount of practice speaking in the auditorium is required in this year.

The course in public speaking is required of all seniors in the four-year course. It includes training in the fundamentals of public speaking with practice of speaking from an outline, as well as extempore speaking. This work is designed to give each pupil opportunity to speak before his fellows and to learn to think upon his feet in order to gain confidence in himself before an audience.

A special class provides further opportunity for practice in expression; it includes reading, recitation, and dramatic presentations. Public recitals are given from time to time which offer opportunity for public work. Special arrangements may be made for private lessons.

*Spelling:*—Spelling belongs in the first year of the course, but students who need it are put into spelling classes at any time. Constant drill in spelling and definition is given from a good spelling book. The work is usually written, and much attention is paid to a correct understanding of the words spelled, as shown by their use in sentences. The school believes in the importance of correct spelling, and that persistent drill will make good spellers.

## Mathematics

The methods employed in teaching mathematics are based on the pedagogical law, that the nature of the subject to be taught conditions the method of teaching it. The nature of every subject in mathematics is found in its fundamental concepts, its principles, and in their applications.

The fundamental principles are also developed inductively through solutions of characteristic problems, and are formulated and expressed in clear and concise language, and learned.

Accordingly, students preparing to teach are required to study thoroughly the science of each subject. In arithmetic and elementary algebra they are led inductively to a comprehension of the fundamental concepts and to an interpretation of the definitions of them.

In the light of these definitions and principles, problems are worked out, the solution being put in statements expressing each logical step involved. In order to accomplish the work in this thorough manner, students must have a preliminary knowledge of arithmetic through percentage and proportion and some of their applications; and in algebra through radicals and quadratic equations before they are allowed to enter the First Year class, their knowledge being tested by an entrance examination. In the First Year class these branches are thoroughly reviewed and studied in the light of the theory involved. Algebra is completed in the First Year, while arithmetic is again reviewed in the Senior year. After completing our course in these branches, we feel that we can recommend our students with confidence as teachers of them.

Students failing to pass the entrance examinations to the First Year are promoted into that class as soon as they are found qualified to

enter it. Students are admitted to the Second Year classes in plane geometry without any previous knowledge of the subject. They are required in this branch of mathematics to learn and illustrate all definitions and axioms; to learn and thoroughly demonstrate all propositions and corollaries, giving full authority for every statement made; to solve all geometrical problems by accurate constructions, and to demonstrate and solve original theorems and problems.

Solid geometry and plane trigonometry and surveying are studied with equal thoroughness, and practical field work in surveying with a first-class surveyor's transit, with stadia attachment is done during the spring term.

## Physical Science

*Physics:*—In Physics the topics regarded as of practical value to the greatest number are mechanics, including the mechanics of liquids and gases; heat as a motive power and in its application to atmospheric phenomena; and such portions of electricity as are necessary to an elementary knowledge of its more common practical applications. Individual laboratory work is required of all students.

*Chemistry:*—In Chemistry the work is largely experimental in character. Each day's lesson is, as far as possible, applied by the student in the laboratory, and embodies the result of his own observations and experimental work. As soon as the student is sufficiently advanced, his attention is turned to such portions of the subject as find practical application in the home, in the dairy, and on the farm.

*Geology:*—In Geology the student is expected to become familiar with the common minerals and rocks, and the changes undergone by rocks in weathering and in the processes of soil formation. Stress is placed upon the ability to recognize different rock formations, and the influence of such formations upon the general character of the country. He is also called upon to observe the action and effects of rain and streams in producing the present relief forms shown in our own neighborhood. In short, while an attempt is made to cover the ground and the text-book, such portions of the subject are given prominence as furnish the best fields for investigation in our locality and serve best to stimulate observation and thought.

## Biological Science

The work of the department of Biological Sciences begins in the second year in botany, is continued in the third year with physiology and zoölogy and culminates in the fourth year in nature study and agriculture.

*Botany:*—The emphasis in Botany is laid on the life activities of the plant and its relation to its surroundings. A rich and varied field is close at hand and a well equipped laboratory, together with an excellent lantern and abundant slides, assists to make practical the teaching in this subject.

*Zoölogy:*—The study of animals, both living and prepared, and frequent observations in the field, make this a vital subject. The underlying purpose of the work is to furnish the student with a clear concep-

tion of life in order that he may the better understand his own life. The department is provided with a good laboratory, and with an excellent lantern with equipment for projecting minute living animals as well as microscopic preparations and photographic slides. Abundant field material, close at hand, gives vitality to this subject.

*Physiology*.—The knowledge of life gained in botany and zoölogy here finds its immediate application in the better understanding of human life. Modern methods of safeguarding the health of school children receive careful attention. An Azoux manikin, a skeleton and model and lantern slides assist the work in this department.

*Agriculture and Nature Study*.—The information gained in the earlier study of the various sciences finds in these studies of the fourth year its pedagogical application.

The work in nature study undertakes to select the material and to bring its treatment within the grasp of the children of the lower grades. It serves to make the students at home in nature and to prepare them for the comprehension of the later scientific studies.

The work in agriculture treats of the underlying principles of plant and animal culture and improvement and of the simpler operations of farm, orchard and dairy. Practical work in gardening, visits to adjoining farm and dairy, and laboratory work in soil examination and seed testing helps the pupils to a practical understanding of the subject.

## History and Civil Government

*History of the United States*.—A fair knowledge of the History of the United States is required for admission to the First Year of the Normal School course. A course in United States History and Methods of Teaching History is given in the Third Year. In this class special attention is given to the political and industrial development of the United States. Much topical work, designed to train students in the use of the more important secondary histories and illustrative source material, is assigned. This course also deals with the problem of teaching history in the common schools. The place of history in the course of study, its value, the use of stories in the lower grades, the proper use of a text-book and of other books, the use of illustrative material, and teaching children how to study the lesson are some of the topics treated.

*General History*.—A one-year's course given in the Second year embraces a rapid survey of the entire subject, in which the origin and growth of institutions are briefly traced and the meaning of the more important movements and epochs pointed out and emphasized. The English History is presented with special reference to giving the student a better background for the study and teaching of the history of America.

*Civil Government*.—Some knowledge of this subject is required for admission to the First year. A preparatory class will be organized for those who need it. The regular course in Civil Government is given in the Third year. This course is founded upon Philips's Nation and State, which is supplemented with much additional practical information and application.

## Geography

*Political Geography* is reviewed in the Third year of the course in connection with special work in methods of teaching this important subject. The subject is carefully taught as it is found in modern text-books, with abundant illustrations from maps and globes.

*Physical Geography* is taught in the First year as a part of the school work in physical science. It is illustrated from the great collection of geological, mineral and other specimens in the school's museum, and by field work and excursions to places of geographic interest in the vicinity. The neighborhood of West Chester is unusually rich in mineralogical and geographical interest.

## The Arts

*Drawing*:—The aim of the course of instruction in this department is not only to teach the students Drawing, Form Study and Color, but also to furnish a means of mental development which shall lead to a knowledge and appreciation of the beautiful. The three general divisions of the work are: Representation, or the drawing of the appearance of objects; Decoration, or the producing of beauty in ornament; and Construction, which deals with the facts of form.

*Writing*:—The pupil is taught the most rapid, practical business styles possible. This work comprises a thorough study of the mechanics and pedagogy of Arm Movement Writing, lessons and lectures from the blackboard, recitations and essays or theses to determine the pupil's general education and technical knowledge of the subject.

*Vocal Music*:—Regular class work is given in vocal music twice a week, without extra cost.

## Physical Training

This department provides instruction and means for the betterments and preservation of health and harmonious development of the body. It prepares graduates to introduce free gymnastics into their schools and to exercise intelligent oversight of the physical needs of school children. These objects are accomplished by—

1. Regular class exercises in the gymnasium during the fall and winter and upon the field in the spring, and by periods for optional work after school hours, alternating with class days.

2. Physical measurements and strength tests of all students upon entrance, at the close of the school year, and at such intervals as seem necessary. This forms the basis of comparison of the student's condition and needs, and determines the character and amount of exercise necessary to overcome marked deficiencies, irregular development, or such deformities as are amenable to physical exercises.

3. Personal advice in reference to habits of life, exercise, study, and recreation; by lectures and class-room instruction pertaining to hygiene, the physiology of exercise, etc.

4. Instruction concerning the history, systems, methods and educational value of gymnastics, and its correlation with other branches.

5. Practice teaching of school-room gymnastics, instruction and practice of plays and games involving physical activity, and a consideration of the principles which lie at the bases of the universal play instincts.

All who graduate hereafter will be expected to be able to swim, except such as are necessarily excused from it. The School's swimming pool and physical instructors give every facility for this.

All students are required to take the prescribed light gymnastics, which are of such a character as to meet the average needs and not over-tax the strength of any student who is in a physical condition to undertake normal school work.

## Foundation, State Ownership, &c.

The West Chester State Normal School was founded in the year 1871 by the joint efforts of the Trustees and contributors of the West Chester Academy, and the citizens of West Chester and vicinity.

On December 30, 1913, all the property of the school was transferred to the State, as provided in the new School Code, and it is no longer owned and controlled by a private corporation, but is strictly a State Normal School, being the first Normal School in Pennsylvania to be thus transferred. It is managed by a board of nine trustees, who are appointed for three year terms by the Superintendent of Public Instruction.

### LOCATION

West Chester is a beautiful town of 13,000 inhabitants, the county seat of Chester county, and is preëminent for its healthfulness, morality and intelligence. It is about twenty-five miles west of Philadelphia, with which it is connected by two lines of the Pennsylvania R. R. It is also connected with Philadelphia by a trolley line, over which cars run every half hour each way, starting from the 69th and Market streets terminal of the Market street subway and elevated railway. A short branch road connects West Chester with the main line of the Pennsylvania Railroad at Frazer, where connections are made with the trains on the main line; and by electric roads it is also connected with the Philadelphia & Reading R. R. at Lenape, and with the Pennsylvania R. R. at Coatesville, Downingtown and Kennett Square.

### THE BUILDINGS

Are situated in the southern part of the borough, half a mile from the Court House. The main building is built of green-stone with white marble, 256 by 275 feet, four stories high, with basement.

The chapel and the dining-room are in the main building and are completely and handsomely fitted up. Each story has bath-rooms (hot and cold water), water-closets, slop-hoppers, &c., of the best pattern. The drainage is first-class. The whole building has lately been improved; the students' rooms have all been papered, refitted and refurnished and many other improvements made to add to the efficiency of the school and the comfort of the students.

Two passenger elevators make all the floors equally desirable. An electric light plant supplies every part of the building with the best and safest lights.

**THE GYMNASIUM.**—There is a first-class gymnasium, 104 by 64 feet, with an administration building attached, 29 by 36 feet. It is of stone two stories high, fitted up with every modern improvement, including a full supply of the best apparatus, running track, bath rooms, large swimming pool, bowling alleys, &c. A thoroughly trained physician and his wife are in charge of the gymnasium, and all exercise is taken under their supervision. All students are given a complete physical examination, and proper exercises prescribed for them. This gymnasium marks a great and important advance in the Normal School work, and its advantages are enjoyed by all students without extra cost.

**RECITATION HALL.**—This is a stone building 185 by 80 feet, with two stories above a high basement, which is used wholly for school purposes. It has been planned with great care, and is unusually well adapted for its purpose. It is heated and ventilated by the fan system. The total cost of the building and its equipment has been over \$100,000.

**LIBRARY.**—A new library building has been built at a cost of \$60,000. It is 90 by 72 feet, will hold 50,000 books, and affords fine reading and reference rooms. In its second story are the school's museum, an art gallery, and the collection of the Chester County Historical Society. The library now contains 20,000 well selected volumes, including the libraries of the late Dr. William Darlington and of the Chester County Cabinet of Nature Sciences, the Evans Rogers collection of historical books, for which \$1,000 was given by the late Evans Rogers; the Horace Howard Furness collection of books on Shakespeare, the gift of Dr. Furness; the Brinton Collection given by Howard Futhey Brinton in memory of his parents, Dr. William B. and Ida Futhey Brinton, and the collection of Chester county bibliography made by the late H. Rush Kervy. A modern card catalogue and a trained librarian add much to the value of the library. About a hundred leading magazines and papers come regularly to the library for the use of the school.

**NEW BUILDINGS.**—For years the school's large buildings were insufficient to accommodate the students applying for admission, and in 1910-11 three large new buildings were built. These are a **NEW DORMITORY**, of green stone, three stories high, to accommodate 175 boys, where all the boys room, but take their meals in the main dining room, a short distance away; an addition to the **DINING ROOM** and a new three-story annex, together with the rooms formerly used by the boys, enable the main

Dormitory to accommodate more than 500 girls; a large new separate HOUSEHOLD BUILDING, with complete kitchen, bakery, store room, and other conveniences. These buildings, with their equipment, cost more than \$150,000.

NEW GROUNDS.—The Trustees have added to the original ten acres required by law, until the school now has about sixty acres of fine grounds, suitably fitted up for all out-door games, a large and safe skating pond and a small well equipped farm for practice and observation in Agriculture.

INFIRMARY.—A complete and well-appointed school infirmary, at considerable distance from the other school buildings, has been erected. This has been planned by skillful physicians and architects, and will not only promote the comfort and recovery of any who may be ill, but will also tend to prevent the spread of contagion in the school. It is believed that this was the first school of its class to take this important step. A trained nurse is employed by the school, who gives her whole time to the care of the health of the school.

The school property has now cost about \$900,000, and is believed to be one of the best and most complete of any State Normal School in this country.

### STUDENTS' ROOMS.

The rooms are generally arranged for two students each. All are good sized, and are thoroughly heated by direct steam radiation. The rooms are comfortably furnished, have closets, single beds, wash stands, bowls and pitchers, and are furnished with woven wire mattresses. The ladies' rooms are all carpeted. The buildings and grounds are lighted by the school's own electric lighting plant.

## Admission, Government, &c.

### CONDITIONS OF ADMISSION.

Pupils will be allowed to enter the regular course at any point for which they are actually fitted, subject to the regulations before mentioned. They are urged, whenever possible, to graduate from their high schools before entering the Normal School.

A prompt attendance at the commencement of the session is of the utmost importance, both to the progress of the pupil and proper organization of the school.

Students desiring to enter the institution should make application to the Principal at as early a date as possible. All new students must submit satisfactory testimonials of good character from their last teachers, and must have physicians' certificates of vaccination.

Pupils boarding in the institution will be furnished with beds and bedding, and are expected to furnish a pair of blankets, or an equivalent, towels, and table napkins. All students will need gymnasium shoes, which can be got in West Chester at small expense. The young ladies provide themselves with gymnasium suits of black serge, sailor blouse style. Many of the boys provide carpet for their rooms, thus giving them a neat and home-like appearance.

Keys, wash-bowls and pitchers are furnished by the school, but their cost must be deposited when they are obtained, which deposit will be refunded when they are returned uninjured.

### MORAL AND RELIGIOUS CULTURE.

All students are required to attend the opening exercises of the school Chapel each day, and all must attend religious services each Sabbath morning in the town, at the churches preferred by their parents or guardians. The Young Men's and Young Women's Christian Associations are large and efficient, and maintain regular non-sectarian religious meetings.

### LITERARY SOCIETIES.

There are connected with the school two flourishing Literary Societies—The Moore Literary Society and the Aryan Society—composed of students and members of the Faculty.

The value of these Societies as adjuncts of education is so great that the student cannot afford to neglect the opportunities they afford for literary and oratorical culture.

School Grounds and Buildings—West View

## MUSEUM.

The Museum contains a large and valuable collection of specimens illustrating every department of Natural Science. It was begun in the year 1826, and has been annually enriched with contributions from every portion of the world. The justly celebrated "Herbariums" of the late Dr. William Darlington, David Townsend, and Josiah Hoopes, now in the Museum, are conceded to be among the most accurate and extensive private collections ever formed in this country. The mineral collections of the late Alfred Sharples have been deposited by his son, F. F. Sharples. The J. Preston Thomas collection of heads and horns, a valuable zoological collection from all parts of the world, and of Indian relics, including thousands of arrow heads, axes, pipes, &c., were collected by the late J. Preston Thomas and given to the school by his family. A fine collection of birds, made by the late Frank Darlington, has recently been added to the museum.

## TEXT BOOKS.

Text Books are sold to students at publishers' prices; but many of the books used in the course are furnished on rent to those preferring it.

## MUSIC

This department, including vocal music and piano, is unexcelled outside of the large cities. The teachers in charge are fine musicians, and have had long and successful experience in their profession.

## MUSIC RECITALS

Are held every few weeks in the Chapel for the purpose of giving the pupils ease and self-control in playing and singing before an audience. For these recitals a Steinway Concert Grand Piano is used.

## ORCHESTRA.

An excellent orchestra is maintained which gives students the opportunity to learn to use, or to improve in the use of, the various instruments of an orchestra.

## TEACHERS' BUREAU.

The school maintains a Teachers' Bureau for its graduates and the public. Superintendents, School Boards and graduates of the Normal School are invited to use this Bureau without charge.

## CALENDAR

The school year is divided into three sessions. The Fall Session will begin *Monday, September 1st*, and continue six--

teen weeks. The Winter Session will begin *January 5th*, and continue *thirteen weeks*. The Spring Session of *eleven weeks* will begin *April 5th*.

## EXPENSES

	Full School Year 40 weeks	Part of Year
<i>Board, Room, &amp;c.</i> :—Board, furnished room, light, heat and laundry (12 pieces per week).....	\$240.00	\$6.25 per week.
<i>Tuition</i> : .....	80.00	2.00 per week.
<i>Enrollment Fee</i> : .....	5.00	For whole or part of any session \$2.00.

## DEDUCTIONS:—

<i>State Aid</i> for students 17 years or more of age and preparing to teach at least two years in Pennsylvania .....	80.00	\$2.00 per week.
<i>Absence</i> :—Boarding students absent for two or more consecutive weeks on account of personal sickness. . . . .	.....	\$6.00 deducted.
<i>No deduction will be made for the first four weeks or for the last four weeks of the school year.</i>		
<i>Students who take Gymnasium only</i> . . .	10.00	Part of year 25c. per week

When a student's place in the school building is held for him during his absence, and cannot be temporarily filled, a charge of \$1.00 per week is made.

Meal tickets for visitors may be got from the office at 25c. each.

## MUSICAL INSTRUCTION:—

Two lessons per week with two practice periods per day. ....	\$60.00	\$1.60
Two lessons per week without practice .....	50.00	1.30 per week.
Use of piano two practice periods per day.....	10.00	.25 per week.

No deduction can be made for missed lessons unless the student is absent from school on account of personal sickness for two or more consecutive weeks

For half the above number of lessons and practice the charge will be half as much.

In case of a deficit in the State Aid appropriation, students at the different State Normal Schools will receive the same pro rata share of the appropriation. The full amount has been received for many years.

Except in case of a deficit, the State Aid pays the tuition of all students who are over seventeen years of age who declare their intention to teach at least two full terms in the public schools of the State, and who constantly receive regular instruction in the science or art of teaching in a special class for that purpose.

\$100.00 is due at the beginning of the year. Subsequent bills are due at the beginning of the Winter and Spring terms.

The Principal or his representative, acts for the Trustees and receipts all bills.

Bills may be paid by cash, check, or post office money order.

There is no extra charge for vocal music, elocution, drawing or other subjects taken in the regular classes, and none of any kind, except for private music lessons, books, stationery, sheet music, damage, and Laboratory, Manual Training, and Domestic Science fees.

Bills for one term must be settled before students will be permitted to enter upon the next term, unless by special arrangement.

Diplomas will not be issued to those whose bills are unpaid.

### ALUMNI FUNDS

A loan fund has been established by the Alumni, which now amounts to more than \$8,000. This is loaned, without interest, to worthy students. The David M. Sensenig Scholarship Fund of more than \$2,000 was contributed by the Alumni in memory of the late Prof. David M. Sensenig. Its income of \$100 is awarded each year to a member of the Senior class who has maintained a high standard of scholarship and conduct and excels in mathematics.

### VISITORS AND VISITING

Calls on pupils during the hours of recitation or study seriously interferes with the object they have in view, and therefore will not be allowed, except in case of necessity. Prolonged visits are not expected, as they interfere with the student's work, as well as with the school's household arrangements.

Every absence from school duty is a loss which cannot be wholly made up. *Parents are earnestly requested not to take their children away from a single school duty, unless it is absolutely necessary. It will interfere with important school duties if a student leaves earlier than Saturday morning or returns later than Sunday evening.* Students are not permitted to visit home or away from town without special permission from their parents or guardians.

Relatives and friends are requested to call for students by telephone only in cases of necessity, on account of the difficulty in getting messages to them.

Express charges on packages sent to students should always be prepaid.

## REGULATIONS

1. Students are considered members of the school until the Principal is duly notified of their withdrawal.
2. The hours regularly assigned to duty are to be faithfully devoted to the preparation of the work required.
3. Students are allowed to walk for exercise in the vicinity of the school, but are not permitted to visit the town or otherwise absent themselves without permission. Absence from the buildings after dusk is not permitted without permission.
4. Permission to be absent from a recitation must always be obtained from the teacher in charge of the class, *before* the absence occurs; and students desiring to be absent from town must get written permission from the Principal or Preceptress.
5. Boarding students who are not present at the beginning of the term must send to the Principal written explanations of their absence.
6. Every student must be present at the daily opening exercises of the school, and at all general exercises of the school, and at the general exercises in the Chapel, unless excused.
7. All objectionable books, papers and cards found in possession of the students will be taken and destroyed.
8. Disorderly conduct in the building is prohibited. Each student will be held accountable for any disturbance or damage in his room.

9. No nails must be driven in the walls or ceilings, or alterations made in the windows, doors, or any appendage of the rooms without permission from the *Steward*.

10. Students are not allowed to visit one another's rooms during the regular hours of study without permission of those in charge of the halls. No change of rooms must take place without permission of the Principal.

11. All students who are tardy, unnecessarily, at meals, will forfeit them, and no one will leave before the rest of the table without good reason, and permission from the person sitting at the head of the table. Any student sick or indisposed, and requiring attention, must have himself reported at once to the Nurse.

12. It is expected that the ladies and gentlemen of the Institution will treat one another with politeness, but they will not be allowed to be together or to carry on conversation or other communication except in the performance of the school exercises, unless by special permission.

13. Students will not visit the dining room at any other time than meal time, nor the domestic department, boiler room or music rooms, without permission.

14. The use of tobacco in any form is strictly prohibited in the building or on the grounds.

15. Students will be required to attend public worship each Sabbath morning, at such place as their parents or guardians designate.

16. Students are required to take up enough studies to keep them, in the judgment of the Dean, sufficiently employed, but not more than they can study with profit.

17. Students must furnish towels, napkins, and two pairs of blankets (or an equivalent), and have all articles of clothing *distinctly marked*. Each student is permitted to have twelve plain pieces washed each week without extra charge. While great care is taken with all articles sent to the laundry, the school will not be responsible for their loss or damage.

The right is reserved to remove from the school any pupil whose character or conduct is deemed to be objectionable or whose influence is found to be detrimental.

## To Alumni and Friends

In view of the great service rendered by, and the interest in, the Alumni Loan Fund of the West Chester State Normal School, it has been suggested that members of the Alumni and other friends of the School might desire to remember this fund and other activities of the Alumni in their wills, and the following form is suggested.

A will or codicil containing such a bequest must have two witnesses to the signature. The Alumni Association is incorporated under the laws of Pennsylvania.

I, ....., give and bequeath to the Alumni Association of the West Chester State Normal School, ..... Dollars, free of inheritance taxes, to be loaned through its Alumni Loan Fund to students of the West Chester State Normal School, or to be invested, and its income used under the direction of its Alumni Association for the benefit of the West Chester State Normal School.
